1) Recent Events

Hi guys! A belated happy new year from all of the Outreach team – I hope you’ve all settled back in after the break. We have a couple of exciting outreach events coming up, for which we need your help! In addition, we’d like to invite you to the first ever CDT Spring Networking Event (see below). This is a chance for us all to get together in a social setting to network and provide the first year students with the opportunity to discuss their project choices before they make their decisions in the following months. Please confirm your attendance ASAP with the doodle poll: https://doodle.com/poll/upmz7nkrvtl7hxvx

We are also looking for someone who is willing to take part in a filmed interview for the Great Exhibition of the North to showcase early career individuals working in science and on graphene. This ideally needs to happen around Feb/March. Please email Seb if you would like more information.

2) Upcoming Events

We have two outreach events coming up. One in February (Nanomasterclass) and one in March (British Science Week). We need at least 8 volunteers for the Nanomasterclass as well as two students who are willing to give a short presentation about their work. Please contact the Outreach team if you would like to present and if you are able to volunteer please sign up using this doodle poll link: https://doodle.com/poll/xyf9vcbnmcrgrq6zk

3) Notices

- The CDT is currently looking to buy a range of commercial products containing graphene to keep the outreach materials up to date. If you have any ideas you’d like to share, please get in touch!
- DON’T FORGET TO CONFIRM YOUR ATTENDANCE FOR NETWORKING EVENT! We have hired out our own area in Blackdog Ballroom with free pool and pizza all night!!
